Profile

Current Ph.D. student in Interior Design at Universiti Sains Malaysia with university teaching experience in interior design, decorative materials, architectural design, CAD/BIM, design software, and built environment studies. Research focuses on AI-assisted age-friendly environment assessment, evidence-based design, public health resilience, and design optimization. Record: 14 published journal articles, including 6 WoS SCIE/SSCI, 3 WoS ESCI, and 5 Scopus-indexed articles; 7 first-author articles; 5 PI-led research projects.

Education

- **Ph.D. in Interior Design**, School of Housing, Building and Planning, Universiti Sains Malaysia, 2021–Present.
- **M.Eng. in Architecture**, Henan University of Technology, 2014–2017. Specialization: Architectural Design and Theory.
- **B.Eng. in Architecture**, Anyang Normal University, 2009–2014. Dual Degree Program: Bachelor of Education.

Academic and Teaching Appointments

- **Current Ph.D. Student**, School of Housing, Building and Planning, Universiti Sains Malaysia, 2021–Present.
- **Secretary**, HBP Postgraduate Student Association, Universiti Sains Malaysia, 2025–Present.
- **Lecturer**, Henan Industry and Trade Vocational College, 2021–2023.
- **Part-time Lecturer**, Henan University of Animal Husbandry and Economy, 2019–2021.
- **Lecturer**, Easton International Art College, Zhengzhou University of Light Industry, 2017–2021.

Teaching Areas

Core studio/design	Interior Design; Architectural Design; Existing Building Renovation Design; Architectural Space Design
Technology/software	Decorative Materials; CAD; BIM Software Introduction; Photoshop; Illustrator; Software Rendering Design
Built environment	Building Structures; Architectural Surveying; Engineering Drawing; Architectural Investigation; History of Chinese and Foreign Architecture
Teaching context	Undergraduate courses; typical class size approximately 40 students

Research Grants and Projects

- **Principal Investigator**, Comprehensive Aging-in-Place Renovation Framework for Legacy Residential Communities in Henan Province, Henan Provincial Social Science Research Fund, SKL-2022-608, 2022.
- **Principal Investigator**, Adaptive Renovation Strategies for Existing Long-term Care Facilities under COVID-19 Safety Protocols, Henan Provincial Department of Education, 2021-ZDJH-433, 2021.
- **Principal Investigator**, Interior Environment Design Strategies for Hospital Outpatient Departments in the Era of Telemedicine, Henan Provincial Social Science Research Fund, SKL-2020-1566, 2020.
- **Principal Investigator**, Integrated Healthcare-Housing Model for Community-Based Senior Living Facilities in Zhengzhou, Zhengzhou Federation of Social Sciences, JX20190146, 2018.
- **Principal Investigator**, Innovative Universal Design Strategies for New Community Development in Henan Province, Henan Provincial Social Science Research Fund, SKL-2018-490, First Prize, 2018.
