Profile

Ph.D. candidate in Interior Design at Universiti Sains Malaysia, with viva voce passed and degree conferment expected within two months. University teaching experience includes interior design, decorative materials, architectural design, CAD/BIM, design software, and built environment studies. Research focuses on AI-assisted age-friendly environment assessment, evidence-based design, public health resilience, and design optimization. Record: 14 published journal articles, including 6 WoS SCIE/SSCI, 3 WoS ESCI, and 5 Scopus-indexed articles; 7 first-author articles; 5 PI-led research projects.

Education

- Ph.D. in Interior Design**, School of Housing, Building and Planning, Universiti Sains Malaysia, 2021–2026. *Viva voce passed; degree conferment expected within two months.*
- M.Eng. in Architecture**, Henan University of Technology, 2014–2017. Specialization: Architectural Design and Theory.
- B.Eng. in Architecture**, Anyang Normal University, 2009–2014. Dual Degree Program: Bachelor of Education.

Academic and Teaching Appointments

- Ph.D. Candidate, Viva Voce Passed**, School of Housing, Building and Planning, Universiti Sains Malaysia, 2021–2026.
- Secretary**, HBP Postgraduate Student Association, Universiti Sains Malaysia, 2025–Present.
- Lecturer**, Henan Industry and Trade Vocational College, 2021–2023.
- Part-time Lecturer**, Henan University of Animal Husbandry and Economy, 2019–2021.
- Lecturer**, Easton International Art College, Zhengzhou University of Light Industry, 2017–2021.

Teaching Areas

Core studio/design	Interior Design; Architectural Design; Existing Building Renovation Design; Architectural Space Design
Technology/software	Decorative Materials; CAD; BIM Software Introduction; Photoshop; Illustrator; Software Rendering Design
Built environment	Building Structures; Architectural Surveying; Engineering Drawing; Architectural Investigation; History of Chinese and Foreign Architecture
Teaching context	Undergraduate courses; typical class size approximately 40 students

Research Grants and Projects

- Principal Investigator**, Comprehensive Aging-in-Place Renovation Framework for Legacy Residential Communities in Henan Province, Henan Provincial Social Science Research Fund, SKL-2022-608, 2022.
- Principal Investigator**, Adaptive Renovation Strategies for Existing Long-term Care Facilities under COVID-19 Safety Protocols, Henan Provincial Department of Education, 2021-ZDJH-433, 2021.
- Principal Investigator**, Interior Environment Design Strategies for Hospital Outpatient Departments in the Era of Telemedicine, Henan Provincial Social Science Research Fund, SKL-2020-1566, 2020.
- Principal Investigator**, Integrated Healthcare-Housing Model for Community-Based Senior Living Facilities in Zhengzhou, Zhengzhou Federation of Social Sciences, JX20190146, 2018.
- Principal Investigator**, Innovative Universal Design Strategies for New Community Development in Henan Province, Henan Provincial Social Science Research Fund, SKL-2018-490, First Prize, 2018.
